ARCHITECTURE | INTERIOR DESIGN | FACILITIES MANAGEMENT

WHO WE ARE

For nearly three decades, Walsh Bishop Associates has focused on client success through design excellence in corporate, workplace, entertainment, hospitality, and housing projects nationwide. We are now an employee-owned organization. Our work is sustainable, imaginative, cost-effective, and operationally successful. We have earned our reputation as a leader in creating award-winning designs.

We embrace a comprehensive approach to design, understanding that it is not autonomous, it is contextual. People and environments exist in a context made up of the individual, the group, the community, the region, the nation, the planet. As we design environments, we consider context, large and small. We explore how design connects people to people, people to structures, structures to structures, and structures to our planet.

WHO WE SERVE
