

WALSH BISHOP

RBC WEALTH MANAGEMENT

Location: Locations Nationwide

Project type: National Corporate Offices

Services: National Strategic Facility Management/Interior Design/
Project Management

Size: Variable up to 150,000 sf

Completion: Providing ongoing services

We have enjoyed our partnership with RBC Wealth Management, formerly RBC Dain Rauscher, since 1985, and work continually to deliver value and innovation in our work. Walsh Bishop provides ongoing interior design for RBC's 85,000 square-foot operations and data center in downtown Minneapolis, as well as organizing, managing and supporting facility management operations, design, and logistics for all of their locations across the United States. Our yearly analysis of existing space, standards, and future needs provides our client team with an invaluable proactive process that supports their efforts to keep the client's environments current, efficient, and cost-effective. At any one time, Walsh Bishop is handling as many as 50 active projects for RBC Wealth Management nationally. Through effective project management, excellent communication, and organizing our team around the client's needs and objectives, we continue to manage these projects expertly, efficiently, and within tightly managed budgets.
